ZONING IMPACT ANALYSIS FORM

Analyze the impact of the proposed rezoning and provide a written point-by-point response to the following questions:

1. Does the zoning proposal permit a use that is suitable in view of the use and development of adjacent and nearby property?
See attached

2. Does the zoning proposal adversely affect the existing use or usability of adjacent or nearby property?
See attached

3. Does the property to be rezoned have a reasonable economic use as currently zoned?
See attached

4. Will the zoning proposal result in a use that could cause an excessive or burdensome use of existing streets, transportation facilities, utilities or schools?
See attached

5. Is the zoning proposal in conformity with the policies and intent of the land use plan?
See attached

6. Are there existing or changing conditions that affect the use and development of the property which support either approval or denial of the zoning proposal?
See attached

7. Does the zoning proposal permit a use that can be considered environmentally adverse to the natural resources, environment and citizens of the City of Johns Creek?
See attached

ZONING IMPACT ANALYSIS FORM

10655/10725 Jones Bridge Road

1. Does the zoning proposal permit a use that is suitable in view of the use and development of adjacent and nearby property?

Yes, the Property is mostly surrounded by residential developments and is in the Ocee character area which permits up to a maximum of 3 units/acre outlined in the Comprehensive Plan. A substantial amount of the property is adjacent to the Fulton County water towers and two cell towers.

2. Does the zoning proposal adversely affect the existing use or usability of adjacent or nearby property?

No, the surrounding properties have similar residential uses and will not negatively impact them.

3. Does the property to be rezoned have a reasonable economic use as currently zoned?

Both parcels are zoned AG-1 and have two homes on them. One is owner occupied and the other is not habitable. The AG-zoning does not have reasonable economic use and it is unlikely the property will be developed with only one home on each parcel. The 10725 Jones Bridge Property holds a Special Use Permit to allow for a church.

4. Will the zoning proposal result in a use that could cause an excessive or burdensome use of existing streets, transportation facilities, utilities or schools?

The zoning proposal will have minimal impact on schools and only minimal impact on existing streets. The new residences will connect to Fulton County sewer and water. Adequate capacity is available.

5. Is the zoning proposal in conformity with the policies and intent of the land use plan?

Yes, the property is located in the Ocee character area and permits up to 3 units/acre.

6. Are there existing or changing conditions that affect the use and development of the property which support either approval or denial of the zoning proposal?

The property's current AG-1 with a special use permit for a church is no longer compatible with surrounding properties. While the adjacent properties have lower densities that were developed in the 1970's and early 1990's the requested density is consistent with the Comprehensive plan.

7. Does the zoning proposal permit a use that can be considered environmentally adverse to the natural resources, environment and citizens of the City of Johns Creek?

The residential development will not adversely affect the natural resources, environment and citizens of the City of Johns Creek.

Environmental Site Analysis (ESA)

Land Use Application for 10655 and 10725 Jones Bridge Road, Johns Creek Georgia

Applicant: Edge City Properties, Inc.

Conformance with the Comprehensive Plan

The proposed project is a 22 unit single family residential development located on the east side of Jones Bridge Road and the south side of Morton Road. There is approximately 60' of elevation from the highest elevation to the lowest point on the site.

The site is located in the Ocee Character Area of the Comprehensive Plan and allows a density of up to 3 units/acre (see Exhibit "A"). The zoning proposal requests that a density of 2.95 units per acre be granted in the R-5A zoning classification. The development substantially complies with the vision of the Comprehensive Plan as it is compatible with surrounding properties. The southern and eastern lines primarily border an R-4 residential subdivision developed in 1995.

Environmental Impacts of the Proposed Project

- a. Wetlands: According to the U.S Fish and Wildlife Service National Wetlands Inventory **no** wetlands are located on this property.
- b. Flood plain: According to the FEMA Flood Insurance Rate Map for Fulton County, Georgia and incorporated areas, MAP #13121C0086F dated September 18, 2013, this site is not in a Flood Hazard Zone.
- c. Streams/Stream buffers: There are no streams or state waters on the property
- d. Slopes exceeding 25% over a 10-foot rise in elevation
According to GIS contours, the property does not have slopes which exceed 25%.
- e. Vegetation
The existing site contains mature trees of which specimen size trees are largely located along the stream. Approximately 1/10 of the site is developed with grassed and landscaped areas around the yards and structures.
- f. Wildlife Species
From field observation, no wildlife other than birds and squirrels were observed on the property.
- g. Archeological/Historical Sites
We have found no evidence that this property has any archeological or historical sites.

Project Implementation Measures

- a. Protection of Environmentally Sensitive Areas
The site will be developed using Best Management Practices (BMP's) and only after a land disturbance permit by the appropriate jurisdiction. Additional measures will be

RECEIVED
NOV 04 2016
City of Johns Creek
Planning & Zoning

RZ-17-001
16-2715

taken from Appendix 1 of the Erosion and Sediment control checklist to ensure sensitive areas will remain.

b. Protection of Water Quality

Water quality will be provided onsite per City of Johns Creek and the Georgia Stormwater Management Manual. Channel Protection and detention will be provided in an above ground storm water management pond. The pond will be designed to handle the one year to 100-yr storm as well as reduce flows to protect downstream receiving channels.

c. Minimization of Negative Impact to Existing Infrastructure

Existing infrastructure is not expected to be impacted by the proposed use of the property. Water, sewer and storm sewer infrastructure adjacent to the property.

d. Minimization on Archaeological/historically Significant Areas

This site does not contain archaeological or historically significant areas; therefore, no negative impact is expected.

e. Minimization of Negative Impact to Environmentally Stressed Communities

This site does not have any streams or state waters to protect.

f. Creation and Preservation of Green/Open Space

In order to create green/open space, a variance to delete the 40 ft perimeter setback and replace with a 25' landscape buffer along all property lines with residential homes (excluding the Water and Cell Towers).

g. Protection of Citizens from Noise & Light

All site lighting shall conform to City of Johns Creek standards and regulations to minimize light pollution. Minimal noise is expected to be created by the development.

h. Protection of Parks and Recreational Green Space

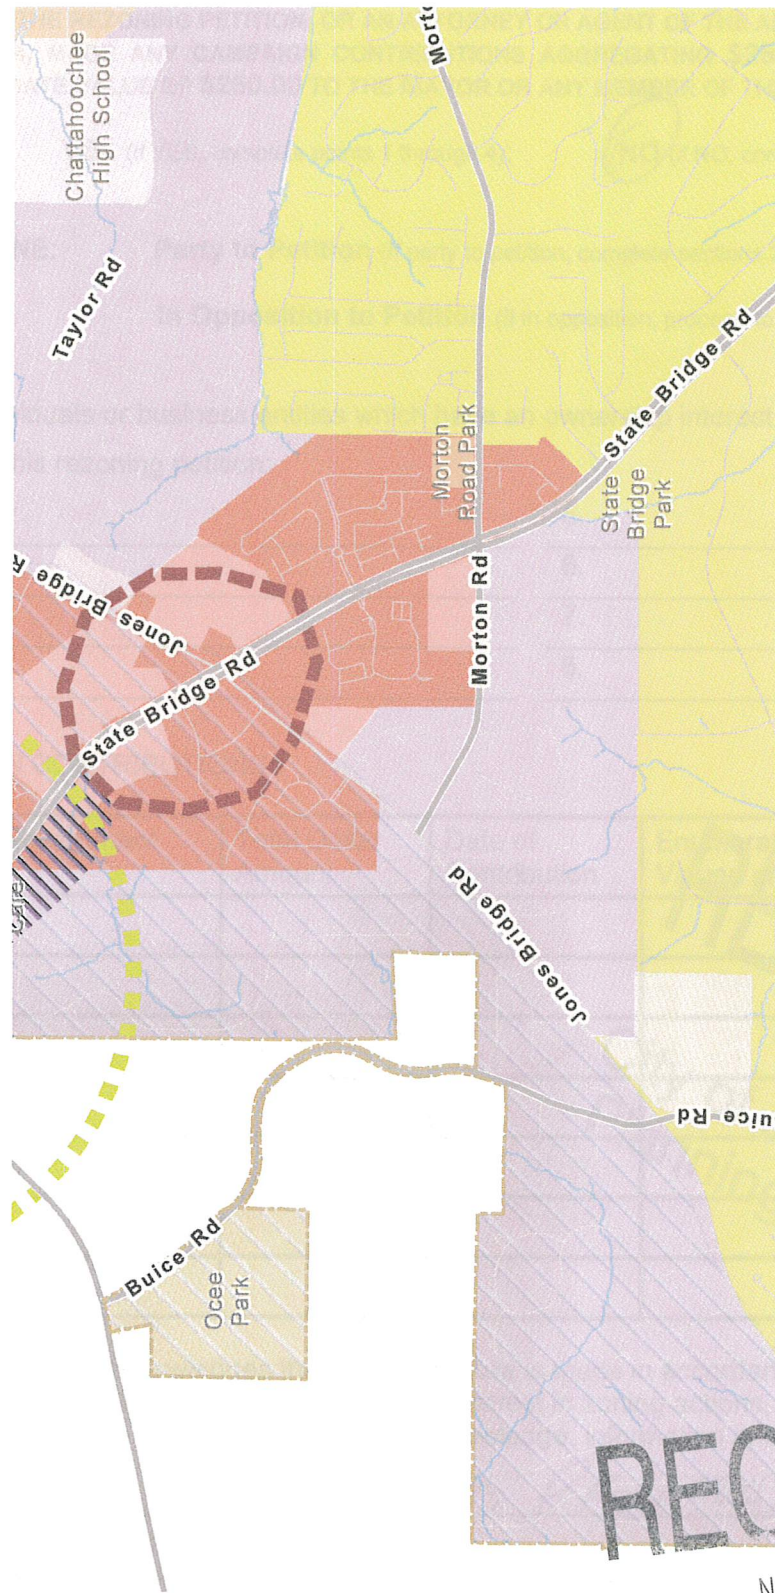

The proposed development will not have negative impacts to neither parks and recreational green space.

i. Minimization of Impact to Wildlife Habitats

This site does not have any streams or state waters to buffer or require setbacks.

PUBLIC PARTICIPATION PLAN

1. The City of Johns Creek will notify all property owners within a quarter mile of the site. What other groups do you intend to contact?

The Gates Homeowners Association and residents which about the property.

Johns Creek Community Association

2. How do plan to contact any interested parties, either before making application or after the city neighborhood meeting, regarding the rezoning/use permit application?

After the application submittal but before the City neighborhood meeting.

3. In addition to the City of Johns Creek neighborhood meeting, do you plan to provide any other opportunities for discussion with interested parties before the PC and M&CC hearings?

Yes, any residents or community groups that express an interest to discuss or meet.

4. What is your schedule for completing the Public Participation Plan?

To be submitted no later that 15 days prior to the Planning Commission meeting.

CONSTITUTIONAL OBJECTIONS

Applicant: EDGE CITY PROPERTIES, INC.

Subject Property: 7.45 Acres of Land at 10655 and 10725 Jones Bridge Road

Current Zoning : AG-1

Proposed Zoning R-5A for single family detached homes

Georgia Law and the procedures of the City of Johns Creek require us to raise Federal and State Constitutional objections during the rezoning application process. While the Applicant anticipates a smooth application process, failure to raise constitutional objections at the stage may mean that the Applicant will be barred from raising important legal claims later in the process. Accordingly, we are required to raise the following constitutional objections at this time:

A denial of the Application would be unconstitutional in that it would destroy the Owner's property rights without first paying fair, adequate and just compensation for such rights, in violation of Article I, Section I, Paragraph I of the Constitution of the State of Georgia of 1983, Article I, Section III, Paragraph I of the Constitution of the State of Georgia of 1983 and the Due Process Clause of the Fourteenth Amendment of the Constitution of the United States.

Any application of the Code of the City of Johns Creek, or the Zoning Ordinance of the City of Johns Creek, to the Subject Property that prohibits the Owner from developing the Subject Property as proposed is unconstitutional, illegal, null and void because such an application constitutes a taking of the Owner's property in violation of the Just Compensation Clause of the Fifth Amendment to the Constitution of the United States, Article I, Section I, Paragraph I, and Article I, Section III, Paragraph I, of the Constitution of the State of Georgia of 1983 and a violation of the Equal Protection and Due Process Clauses of the Fourteenth Amendment to the Constitution of the United States because such an application denies the Owner an economically viable use of its land while not substantially advancing legitimate state interests.

A denial of this Application would also constitute an arbitrary and capricious act by the City of Johns Creek Mayor and City Council without any rational basis therefore, thereby constituting an abuse of discretion in violation of Article I, Section I, Paragraph I of the Constitution of the State of Georgia of 1983, Article I, Section III, Paragraph I of the Constitution of 1983 and the Due Process Clause of the Fourteenth Amendment to the Constitution of the United States.

A refusal by the Johns Creek Mayor and City Council to grant the Application would be unconstitutional and discriminate in an arbitrary, capricious and unreasonable manner between the Owner and owners of similarly situated property in violation of Article I, Section I, Paragraph II of the Constitution of the State of Georgia of 1983 and the Equal Protection Clause of the Fourteenth Amendment to the Constitution of the United States. Any approval of the Application that subjects the Subject Property to conditions that are different from the conditions requested by the Owner, to the extent such different conditions would have the effect of further restricting the Owner's utilization of the Subject Property, would also constitute an arbitrary, capricious and discriminatory act in zoning the

Subject Property to an unconstitutional category and would likewise violate each of the provisions of the State and Federal Constitutions set forth hereinabove.

In addition, this constitutes formal written notice to the City of Johns Creek, pursuant to O.C.G.A. 36-11-1, that the Owner plans to seek to recover all damages that is sustains or suffers as a result of the denial of this Application and/or unconstitutional zoning of the Subject Property from the City of Johns Creek. Such damages may include, but are not necessarily limited to, damages related to the diminution in the value of the Subject Property, attorney's fees and expenses of litigation.

Accordingly, the Owner respectfully request that the City of Johns Creek Mayor and City Council grant the Application as requested.

MAXWELL-REDDICK
AND ASSOCIATES

November 2, 2016

City of Johns Creek
2000 Findley Road, Suite 400
Johns Creek, GA 30097
Attn: Matthew Dickison, Community Development Deputy Director

RE: 10725 JOHNS BRIDGE ROAD
FOR EDGE CITY PROPERTIES
JOHNS CREEK, GA

Dear Mr. Dickison,

Maxwell-Reddick and Associates, Inc. respectfully submits the following trip generation estimates for the referenced project. The proposed development will increase the number of vehicles per day on Johns Bridge Road. The following is a projection of weekday trip generation, including AM and PM peaks.

	Average Number of Trips	Directional Distribution
Weekday	261	50% Entering / 50% Exiting
Weekday AM Peak	26	25% Entering / 75% Exiting
Weekday PM Peak	27	63% Entering / 37% Exiting

The provided trip generation estimates are based on data found in the Institute of Transportation Engineers (ITE) *Trip Generation Manual*, 9th Edition. Should you have any questions regarding the data provided, please do not hesitate to contact me.

Sincerely,

David L. Hendrix, P.E.
